

Work with the Leaders

We're the fastest growing Health IT staffing firm in the country* and our talented workforce is a key to our success. With so many employment choices, here are some reasons why the best IT consultants consistently choose to work with us.

CONSULTANT ADVISORS

Our experienced advisors do more than recruit—they offer individualized career support, including resume assistance and interview prep. We proactively market you before your project ends to keep you consistently employed. But we'll never share your resume without your permission.

EMPLOYMENT OPTIONS

Some consulting firms restrict your employee status. At Healthcare IT Leaders, the choice is yours—you can work as a W2 employee or an independent contractor under your own corporation. We also offer full-time, permanent employment with our firm and our clients.

MORE JOBS

As the fastest growing IT staffing firm in America, we offer more jobs and more projects nationwide. We're healthcare IT-focused, so our jobs match your experience. And you can set up Job Alerts on our website so you won't miss our latest opportunities.

EASE OF PAYMENT

You should get paid on time and without hassles. We're on a bi-weekly payment cycle with a direct deposit option, and we've never missed a payroll. We won't hold up your expenses either. Those are paid bi-weekly as well.

MORE REWARDS

Our unique Rewards program turns your work hours into valuable points. Points are

redeemable through our online catalog, where you can shop for millions of items, including appliances, the latest tablets and smartphones, televisions, resort vacations, jewelry, shoes, sports equipment and more.

REFERRAL CASH

Our referral bonuses—up to \$3,500—are among the most generous in the industry. And there are no limits on how many bonuses you can earn.

DEDICATED SUPPORT

We use technology to make things like travel and expense reporting as simple as possible, but you can always reach our 24/7 support team when you need help. We even have a full-time Happiness Coordinator who checks in regularly to ensure consultant satisfaction.
